

# Hyland Forum

Virtual Event – Thursday, August 13

All times listed are in EDT.

<b>1 – 1:10 p.m.</b>		<b>Welcome to the Forum</b>			
<b>1:10 – 1:45 p.m.</b>	<b>Hyland company update</b> Hyland is here for you, now more than ever. Hear where Hyland has been in the last year, where it is heading in the next year and how our future vision, along with Hyland’s culture, will continue to impact and empower your organization as you adapt to new challenges and opportunities.				
<b>1:45 – 2:10 p.m.</b>	<b>Building business applications on the Hyland platform</b> Reimagine your technology landscape and maximize your Hyland solution investment without relying on custom code. Hyland provides a low-code application platform that allows you to build a variety of business applications for use cases across the organization – allowing you to be proactive, not just reactive. Unleash the power of your Hyland platform and learn about the tools, capabilities and resources available to you today.				
<b>2:10 – 2:15 p.m.</b>		<b>BREAK</b>			
<b>2:15 – 2:45 p.m.</b>	<b>Stories of ensuring business continuity with the Hyland Cloud</b> Our ultimate business continuity offering – the privately managed Hyland Cloud – is designed to provide you secure, remote access to your critical content (and your customers’ critical information) with a 99.99% uptime. Explore the successes and recommendations of customers who have already completed their journeys to the Hyland Cloud and discover if going cloud is right for your solution by learning what changes, challenges and improvements you can expect along the way.				
<b>2:45 – 3:10 p.m.</b>	<b>Hyland roadmap and modernization highlights</b> In 2019, Hyland announced the “Foundation” versioning strategy across our product lines. What does this mean for you, and what does the future of your Hyland solution look like as you evolve to meet new business requirements? This session will review Hyland’s product vision and strategy, touch on recent highlights and preview what’s coming next.				
<b>3:10 – 3:15 p.m.</b>		<b>BREAK</b>			
<b>3:15 – 3:40 p.m.</b>	<b>Networking by Topic: Session 1*</b> Connect with peers and Hyland experts by discussing which topics are most important to you today. Select from the below discussions to share your challenges and successes with fellow attendees.				
	Migrating to the Cloud	Business Applications	Empowering a Remote Workforce	Business Continuity	
<b>3:45 – 4:10 p.m.</b>	<b>Networking by Topic: Session 2*</b>				
	Migrating to the Cloud	Business Applications	Empowering a Remote Workforce	Business Continuity	
<b>4:15 – 4:30 p.m.</b>	<b>Hyland Executive Q&amp;A   Closing</b> As we close out the day, we’ll answer the questions you’ve submitted to our Hyland executives and review the content shared at the Hyland Forum.

# Networking by Topic

*Of the 4 topics below, attendees will select the 2 topics they are most interested in discussing during the Hyland Forum Networking by Topic sessions.*

**MIGRATING TO THE CLOUD:** Join this networking topic to discuss the primary drivers leading your organization to consider moving to the cloud, or that drove your company to pursue a migration to the cloud. Most organizations cite business continuity needs, cost advantages, or simply outsourcing philosophies as prompting a move to the Cloud. What is leading your organization?

**BUSINESS APPLICATIONS:** Join this networking topic to discuss Hyland WorkView and the future of building Business Applications. You'll see how WorkView provides a platform for creating business applications and current plans to modernize these capabilities.

**EMPOWERING A REMOTE WORKFORCE:** Join this networking topic to discuss how to maintain productivity, prompt collaboration, and in some cases leverage new tools to enhance areas of your business with a workforce that is entirely remote or a mix of remote and in-office. While remote work can be more challenging in some ways, it can also create opportunities to grow.

**BUSINESS CONTINUITY:** Join this networking topic to discuss Business Continuity strategies and techniques to build a better state of readiness for everything that life throws at you. More than ever, ensure that you're prepared for whatever may come next.
